

Pallet Slide

DESCRIPTION

Pallet Slide is a water soluble lubricant designed for use on automated block conveying systems. It is formulated to reduce friction on metal-on-metal contact, suppress rust, and minimize staining of block in the kiln.

ADVANTAGES

- Product is stable with no hazardous or toxic ingredients.
- Water soluble.
- Reduced friction and hence wear on equipment

HOW TO USE

Lubrication boxes, rollers and wipers should be thoroughly cleaned prior to the use of Pallet Slide.

Add up to 1 part of Pallet Slide per 8 parts of water by adding the Pallet Slide to the water. Mixing in reverse order may significantly increase mixing time. Mechanical agitation is recommended. Dilute completely before filling lube box. Run wheel applicator as normal.
