

Sea Salt Topping

Product Description

Sea Salt Topping

Cargill Sea Salt Topping is a food grade, fine-screened white crystalline sodium chloride manufactured by solar evaporation of brine. It is refined by washing with clean saturated brine to remove surface impurities, drained of excess moisture, dried, and screened to size. The product being a natural evaporite may contain occasional minute inclusions of extraneous matter from the crystal growing environment. This extraneous matter may manifest itself as black specks or a light colored material, neither of which is harmful in any way. This material contains no anticaking or free-flowing additives or conditioners.

Product Application

This material is intended for a variety of food processing applications, including topping pretzels, crackers and wafers, and processing tomato products.

Product Certifications

Cargill® Sea Salts meet USDA, FDA and Food Chemicals Codex for food use.

Cargill® Sea Salts are certified Kosher for Passover (OU-P) by the Orthodox Union.

Allergen Status

In accordance with the 2004 USA Food Allergen Labeling and Consumer Protection Act (FALCPA), no allergen declarations are required for this product.

Storage and Shelf Life

Salt products will not spoil or support pathogenic growth. Please see the following information regarding shelf life and storage conditions:

Shelf Life: 5 years when stored in optimal conditions.

Storage Conditions: To improve caking resistance, product should be stored in ambient condition and in a dry, covered area at humidity below 75%.

Physical Information

Sea Salt Topping

PHYSICAL	MIN	TARGET	MAX	PERCENT PARTICLE SIZE DISTRIBUTION (SCREENS)	TARGET	MAX
NaCl (%)	99.4	99.6	100	Sieve - USS 20 Mesh Retained	4	20

Why Cargill?

- Salt products are an integral part of Cargill – one of the world’s largest food ingredient providers and a recognized leader in the food processing industry.
- Our products go well beyond standard and high purity salt: Our Alberger® brand, Microsized®, Premier™, CMF®, sea salts, and our sodium reduction solutions such as Potassium Pro® and FlakeSelect®, make up the most extensive product line in the Industry.
- All products are produced under HACCP manufacturing practices and audited by a third party food safety firm.
- We offer full EDI capabilities for customers who need to exchange information via Electronic Data Interchange and the only online ordering portal in the industry, www.cargillsaltstore.com.
- Cargill’s nationwide distribution capabilities, combined with the best logistics and customer service specialists in the business, ensure that you get the right salt at the right time.
