Cargill®

Cargill Product Safety and Quality Policy

Cargill is committed to providing safe, quality products. We will use only those processes, standards, systems and suppliers that ensure the safety, quality, authenticity and regulatory compliance of our products and services. We will communicate relevant product safety and quality matters both internally and externally. We will adhere to those requirements we have mutually agreed to with our customers. Every Cargill employee has a responsibility to ensure the production of safe, quality products that comply with the applicable laws and regulations and meet certification and Cargill requirements. Cargill management will provide the resources and support necessary to enable our employees to fulfill this policy and continually improve our programs and processes.
