

Proven performance powered by more sustainable chemistry.

Cargill Binder & Adhesive Solutions

Binder and adhesive solutions delivering performance and profits through more sustainable science.

Cargill binder and adhesive systems offer the highest quality ingredients powered by industry leading innovation – all without sacrificing economics.

A partnership with Cargill takes your adhesives and binding projects from the lab to the real world. Our customer driven process ensures reliable delivery of everything from ingredients sourced from biologically-based raw materials through collaborative development of systems to solve the hard problems of your industry.

Proven performance. Profitable advantage. More sustainable success.

Our adhesives and binders enable a profitable balance between responsible ingredients and cost. Cargill leverages its global reach and supply chain capabilities to deliver the full trifecta of improved sustainability, cost-effectiveness, and performance.

Portfolio & Process

COMPOSITE WOOD BINDER SYSTEMS	NON-WOVEN BINDER SYSTEMS	CUSTOM INNOVATION WITH CARGILL
Our composite wood binder systems meet the expectations of the environmentally conscious consumer while maintaining top tier functionality.	Our binders for nonwovens enhance the performance of textiles for strength, chemical, and thermal resistance.	Seize the full benefit of Cargill with joint development. Access our portfolio of over 100 ingredients and the world's leading scientists.

Our process is our advantage.

A partnership with Cargill provides your business an undeniable advantage. Whether you need a specific ingredient or a fully developed binder or adhesives solution, we can support your business goals.

Cargill's co-development process starts with materials evaluation, trial assistance, plant implementation and integration, and continues through quality assurance.

State-of-the-art research

Biologically-sourced chemistry

In-depth analysis

On-site support

Proven global technology

Solutions that perform – from the lab to the real world.

Through innovative chemistry and eco-consciousness, Cargill has created solutions that perform.

PERFORMANCE	PORTFOLIO	PEOPLE	PLANET
Choosing more sustainable ingredients does not mean you must compromise on performance.	Gain cost efficiencies by partnering with Cargill's full portfolio of ingredients and expertise.	Helping people thrive through responsible solutions and practices is a Cargill priority.	Cargill is invested in a global mission to preserve the planet.
